

Sanitizing with intelligence for health and elegance

Since **1980**

National Specialized and Sophisticated Enterprise

ANTOP was established in 1980, is a high-tech enterprise in the industry for over 40 years, with R&D, Production, Sales and Technical & Support Services. ANTOP's Headquarter and factory are based in Shenzhen and the marketing center is located in Guangzhou.

ANTOP, as an international well-known technology company of the United States, has more than 500 technical patents, including 100+ international inventions. We offer the best products and serve our customers from all around the world.

ANTOP adheres to an enterprise culture concept of "Merit Reward", and always been committed to Intelligent Smart Health Industry.

Based on our concept "Sanitizing with intelligence, for health and elegance.", we successfully developed a series of products: Smart Home & Vehicle Air Purifier, Humidifier, Air Disinfection Machine and etc. ANTOP will always continue to promote a healthy lifestyle for entire human race. Aiming to achieve the goal of "Healthy China 2030".

ANTOP owns an Industrial Park with area of 110,000m² in Shenzhen as factory. The production management is approved by ISO9001 quality control system, ISO14001 environmental system and OHSAS18001 standard are strictly implemented. Also obtained BSCI certification.

Our products have been certificated by authorities like SGS, ITS and TÜV, and other institutions and strictly conform with CE, RoHS, REACH, FCC, CA65, ETL, CARB, AHAM, ENERGY STAR and other international certification. As well as 3C, CADR Testing and Disinfection Efficiency For Air and etc., in China.

ANTOP always pursuit excellent craftsmanship with a refined innovation concept. With perfectly developed marketing service system, due to our deep rooted high-end markets in Europe, USA and Japan. ANTOP has won a good reputation among customers from over 100 countries and regions all over the world. Let's work together and create a better and healthier future.

Washable Humidifying Filter

PET antibacterial and mold resistant material humidifying filter can reduce the hardness of water, evaporate cleaner water molecules and plays an efficient role in antibacterial filtration.

Water Purification Filter Cartridge

It can not only soften water quality to avoid generating scales, but also filter various dirt in water to reduce bacterial pollution.

720°Power System, Strongly Absorb Hairs From the Air

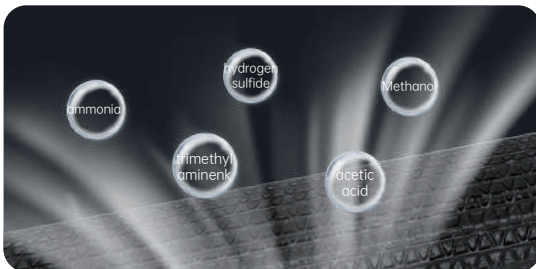

- 1 Drawer pull design**
To make filter replacement easier and prevent hair from falling out.
- 2 Long grille widens air intakes**
With multi-directional adsorption to solve large quantities of hairs easily.
- 3 The transverse bottom widens the air inlet**
It works with the side grille, to fully absorbs hairs that leave on the bottom.

4 IN 1 Powerful Filtration System

- 1 Electrostatic Cotton Filter**
hair, dust, particles
- 2 Pre-Filter**
hair, dust
- 3 H13 Sterilization Filter**
dander, PM2.5, bacteria, mold, dust mites
- 4 Activated Carbon Deodorizing Filter**
urine odor, feces odor, allergen

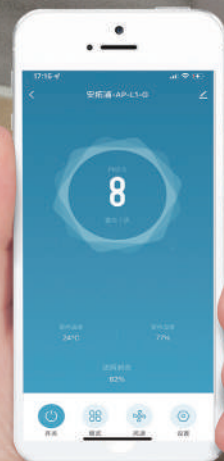

The honeycomb-shaped active carbon layer effectively decomposes odors caused by pets, litter boxes and ammonia to restore fresh air.

The replaceable electrostatic cotton not only effectively absorbs pet hairs and particles, but also easy to replace and lengthen the filter span life.

.01

The DC brushless fan significantly improves the disinfection and filtration effect, releasing fresh air and purifying the whole house.

.02

Nano photocatalytic technology can effectively sterilize and deodorize, destroy the biological structure of bacteria, kill bacteria at the root, and purify the smell comprehensively.

.03

The product adopts a bladeless fan to accelerate the air circulation, and use the air outlet to pressurize, so that healthy air is delivered directly.

- Color: Black/Blue Gray

BREATHE FRESH AIR
 The filter tackles particles and odor in the surrounding air. Captures and neutralizes any pollutants.

PHOTOCATALYST FILTER
 The photocatalyst combined with the LED can react to decompose the bacteria into water and carbon dioxide, and the sterilization rate reaches 99.99%.

HEPA12 FILTER
 HEPA12 filter effectively filters out hair, dust, particulate matter, odor, bacteria, etc.

PRE-FILTER
 The Pre-Filter can effectively filter out particulate matter, dust, hair and other pollutants.

STRONG STERILIZATION

Photocatalytic technology combined can effectively decompose toxic and harmful substances, thereby playing a role of sterilization and disinfection.

Intelligent constant temperature drying,

LARGE SPACE QUICK STERILIZATION

The product is sterilized by plasma. Hydroxyl free radicals in plasma can effectively destroy nucleic acids and proteins in various viruses and bacteria, thereby causing their death.
